

## More 2010 Fishing Machines

by North American Fisherman Editor Kurt Beckstrom

Online Rating: ★★★★★★☆☆(9/10)

### Ranger

Serious big-water walleye, muskie and striper anglers are the targets for Ranger's new 621VS Fisherman. The 21-foot, 5-inch multi-species rig is rated for up to 300 horsepower, has a wide 99 1/2-inch beam and carries 55 gallons of fuel in a single tank.

The 621's cockpit is wide open, with 15 percent more room and an easily accessed under-floor deep-cycle compartment. Fishing features include a 24-volt Minn Kota Fortrex 80 trolling motor with recessed foot pedal and console-mounted Lowrance X135, all maintained by a 15 x 3 onboard battery charger. They even built in enough room on the console for optional in-dash mounting of big-screen electronics like the Lowrance HDS10 and Humminbird 1197.
